

ABDUL AZIZ

Webflow Developer | Web Designer | Front-End Developer

Rawalpindi, Pakistan | Abdulaziz.webflow@gmail.com

Portfolio: abdulazizwebflow.asvorax.com

CAREER OBJECTIVE

Webflow Developer and Web Designer with 3+ years of experience creating responsive, modern, and conversion-focused websites. Skilled in Webflow development, responsive web design, CMS implementation, animations, interactions, custom HTML/CSS/JavaScript, and Figma-to-Webflow development. Experienced in transforming UI/UX designs into clean, responsive, and user-friendly Webflow websites while maintaining strong attention to performance, usability, and visual consistency.

PROFESSIONAL EXPERIENCE

Webflow Developer

2023 – Present

Freelance & Client Projects

- Designed and developed responsive websites using Webflow based on Figma and other UI/UX designs.
- Converted design concepts into pixel-perfect and responsive Webflow websites.
- Built custom layouts, reusable components, CMS collections, and dynamic content structures.
- Developed responsive websites for desktop, tablet, and mobile devices.
- Created custom interactions, animations, hover effects, scroll-based effects, and page transitions using Webflow.
- Integrated custom HTML, CSS, and JavaScript where required.
- Customized Webflow CMS structures according to project requirements.
- Optimized websites for performance, responsiveness, usability, and SEO.
- Troubleshoot layout, responsiveness, animation, CMS, and functionality-related issues.
- Collaborated with clients to understand requirements and convert ideas into functional websites.

Web Designer / Developer

2023 – 2025

FutureMads

- Developed and maintained professional websites using Webflow.
- Converted Figma and UI/UX designs into responsive Webflow websites.
- Created reusable sections, layouts, components, and CMS-based pages.
- Implemented Webflow interactions and animations to improve user experience.
- Worked with HTML, CSS, JavaScript, and Webflow's native development features.
- Optimized websites for mobile responsiveness, speed, usability, and SEO.
- Collaborated with designers and clients to understand requirements and deliver web solutions.
- Fixed website layout, responsiveness, and functionality issues.
- Maintained existing websites and implemented new pages and design updates.
